

Course Code	EDU-CAT-E-ADM-F
Brand & Release	CATIA V5R17
Duration	3 days
Language	English
Level	Fundamentals
Method	ILT

Training Material References

Instructor Foils: EDU-CAT-E-ADM-FI-V5R17
Foils: EDU-CAT-E-ADM-FF-V5R17
Exercises: EDU-CAT-E-ADM-FX-V5R17

Objectives

At the end of this course, administrators will know how to install, customize and maintain CATIA V5. They will study many issues about CATIA infrastructure, administration and data management.

Participants' Profile

This class is for Unix & Windows NT System Administrators and CATIA/ENOVIA key application & support engineers.

Prerequisites

Unix Administration
NT Administration

Content

- Installing CATIA V5 on NT and on Unix with documentation
- Looking at Licensing system and configurations
- License management on NT and Unix
- CATIA V5 environments and related variables
- Customized installations and users settings
- Administrating settings with VB macros
- Lock and set default settings by administrator/root
- Organize CATIA data with DLNames
- Customizing general and drafting standards
- Upgrading from CATIA V5 service packs approach
- Procedures for automatic installation checking on NT and Unix
- Distributing CATIA on NT and Unix clients
- A view of various batch tools
- Reviewing Data and links management aspects
- Over viewing of UNIX/Windows and V4/V5 interoperability

Exercises

- Ex. 1: Installing CATIA V5 on NT (30min) / All sectors
- Ex. 2: Checking, configuring licenses (10min) / All sectors
- Ex. 3: Customizing an environment (20min) / All sectors
- Ex. 4: Settings (60min) / All sectors
- Ex. 5: Customizing standards (15min) / All sectors
- Ex. 6: Installing a service pack, Distributing CATIA V5 to client from server on NT, checking the installation (60min) / All sectors
- Ex. 7: Practicing with tools (30min) / All sectors
- Ex. 8: Understanding Document environment and links (60min) / All sectors
- Ex. 9: Interoperability cases (15min) / All sectors
